Biodiversity Policy

Policy statement

Protecting and enhancing biodiversity is an integral part of SCL's commitment towards sustainable development. We, at SCL, are conscious of the potential impacts and dependencies of our business on the environment in general and on biodiversity in particular. Integrating the need for biodiversity conservation into operational decision-making processes and taking measures to minimize impacts is a commitment across the company.

Policy

1. Comply with local, regional, and national legislative requirements, and applicable international conventions on land management and biodiversity conservation.
2. Ensuring legal compliance with respect to biodiversity by preventing where possible or minimizing and mitigate biodiversity risks throughout our businesses cycle.
3. Raise awareness amongst our employees and other stakeholders to enhance knowledge and understanding of biodiversity and conservation issues.
4. Identify and assess the biodiversity status and value before the start of a new project and monitor impacts over the project lifecycle.
5. Monitor Air, Water and soil on regular basis and evaluate impact on biodiversity.
6. Ensure the conservation of threatened rare and endemic species and high priority conservation areas.

We are committed to protect the biodiversity in the geographies from where we operate for future generations.

A handwritten signature in blue ink, appearing to read 'Anur', is placed above the title 'Director'.
