ENERGY MANAGEMENT POLICY

Policy Statement:

SCL is committed to continuously improving its performance and reducing energy costs. We strive to improve energy efficiency in all our operations and work towards sustainable development while providing safe and comfortable work environment

Goals of Policy are:

1. Become one of the most energy efficient pharmaceutical companies in the sector.
2. Reduce energy consumption in all operations to support our overall business goals, including improving production, quality and environmental stewardship and safety practices, and thus reduce carbon emissions.
3. Engineering solutions for solving energy rather than rely solely on manual intervention.
4. Benchmark energy use of all facilities within the sector by specific period of time.
5. Purchase energy at the most effective cost and reduce energy usage wherever possible, consistent with our business goals.
6. Ensure that staff, customers and suppliers are made aware of our energy management policy and encourage and motivate them to conserve energy.
7. Committed for reduction of 30% energy intensity by FY2030.
8. Comply with all applicable statutory and other requirements related to organization's energy use, consumption and efficiency.

A handwritten signature in blue ink, appearing to read 'Lawyer', is written over the Director's name.
